Register Microsoft security API access application

1. Prerequisites

- Representative with Global Administrator role access.

2. Background

Truesec SOC utilizes a multi-tenant application to fetch information (active alerts, device count etc.) and read/write Defender for Endpoint IOCs and custom detection rules from customers Azure tenants. A consent must be made to allow the application to perform its tasks.

3. Tasks

- Visit the link and log in with an administrator account to the organization that shall consent to the application.

https://login.microsoftonline.com/common/adminconsent?client_id=3bb658be-4eac-4832-baca-65fbde07f547

- A consent dialogue like the one below (Figure 1) will appear. Click “Accept” to consent to the application.
