

Register guest access synchronization application

1. Prerequisites

- Representative with Global Administrator role access.

2. Background

Truesec SOC utilize a multi-tenant application to synchronize group memberships and perform guest invitations to the customers Azure tenants. A consent must be made to allow the application to perform its tasks.

This application will allow enablement of Just-In-Time access for SOC operators and frequent synchronization to make sure that SOC operators have the access they need to perform their tasks, not more and not less.

3. Tasks

- Visit the link and log in with an administrator account to the organization that shall consent to the application.

https://login.microsoftonline.com/organizations/v2.0/adminconsent?client_id=650c28b2-db2e-4e95-8124-0d3410659df4&scope=https://graph.microsoft.com/.default

- A consent dialogue like the one below (Figure 1) will appear. Click “Accept” to consent to the application.

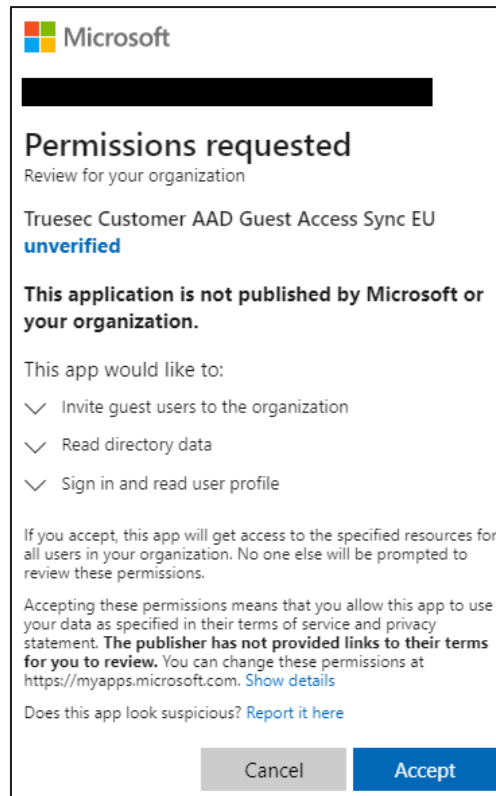

Figure 1 Consent dialogue - the logged on user's email will be shown instead of the black box.

- Visit <https://portal.azure.com>
- Navigate to "Enterprise applications"
- Click "Truesec Customer AAD Guest Access Sync"
- Click "Properties"
- Verify that "Application ID" is "650c28b2-db2e-4e95-8124-0d3410659df4".
- Switch "Visible to users?" to "No"
- Add the following text under Notes:

"This application is used to synchronize Truesec SOC users and group memberships."
- Click "Save"
